

## Instructions for symposium organizers for handling the symposium at the KONGRESSI-portal

1. Log on into the KONGRESSI portal with your access codes: <https://portal.contio.fi/ice2022helsinki/>
2. After log-in you will be shown the “Registrations”-page (see screen capture below).  
**FIRST please change the language to English at the top right-hand corner** (default is Finnish!)
  - The link “Registrations” takes you to your own registration information, which you can modify at that site if needed.
  - The link “**Program**” below the “Program portal”, takes you to the information concerning the symposia for which you have been entered as the contact person.

The screenshot shows the 'Registrations' page. At the top, there are navigation links for 'Registrations' and 'Events', and flags for Finland, Sweden, and the UK, along with a 'Scientific Symposia' user profile. The main heading is 'Registrations'. Below it, a card displays information for the '26th International Congress of Entomology Helsinki 2022'. The card includes a logo, the event name, dates (17.07.2022 - 22.07.2022), a 'Registration form' link, a 'Program portal' link, and a 'Program' link. On the right side of the card, it shows the 'Registration date: 18.06.2021' and 'My Roles: Participant, Contact person'.

3. The link opens the “Program” page, where under “Seminars” all symposia are listed, where you have been set as a contact person:

The screenshot shows the 'Program' page for the '26th International Congress of Entomology Helsinki 2022'. The page has a breadcrumb trail: '26th International Congress of Entomology Helsinki 2022 > Program portal'. The main heading is '26th International Congress of Entomology Helsinki 2022'. Below the heading, there is an 'Identifier: ICE2022'. The page is divided into sections: 'Program' and 'Seminars'. Under the 'Seminars' section, a list item is shown: 'Insect control technologies of the future' with the date and time '07/17/2022 8:00 - 10:00' and a share icon.

4. You can access and modify the information concerning a specific symposium by clicking at its name; “Program information” opens:

## International Congress of Entomology Helsinki 2022

Sunday, July 17, 2022 08:00 - 10:00

Description

Additional Information

Insect pests of agriculture and vectors of disease will always need to be managed. Recently we have seen major advances in a number of technological fields including genetics, electronics, robotics and application of insect control agents as well as significant changes in the regulatory environment in some regions. How will these changes affect how we manage the adverse effects of insect pests in the future? This symposium will seek to explore the possible impact of these technologies on insect management.

Target group

### Lectures

Scientific evidence from research about new technologies

 Mary Model, mary.model@university.net
