

Abstract submission starts on the **home page of ICE2022Helsinki** (www.ice2020helsinki.fi):

1. click on "Submit presentation abstract".
2. You then receive an email link. Follow that link to get to the abstract submission page.
3. Select the symposium to which you are submitting an abstract. The symposia are divided between several "Topic Groups"; find your symposium among those under the various Topic Groups. For example, section "FOOD CHAIN ENTOMOLOGY", symposium "*<name of the symposium that you have been invited to>*"

If you have not been invited to submit to a specific symposium, select "An Open Call for Abstracts"

4. From this onwards it should be easy to complete the submission.
5. Do not forget to register as a participant to the congress. Every presentation has to be presented by someone who is a registered participant. That person should select upon registration as the "Role" at least the following: 'participant', 'presenter'.
